

February 2021:

Dear Sir Krakowski,

I find contact to you on your website.. I was asking my friends Irena Klepfisz and Michael Alpert how to find you and Michael recommended to search just on your website. I hope this email will find you.

I write because from many years together with my husband we listen and listen so often your **great cd Transmigrations. Gilgul**. When we travel in the car or on Friday when Shabes comes ... you are very often present in our life.

You created a new way of Yiddish music and singing ... modern which is a continuation but also a development I don't know to describe it in English.

However THANK YOU A LOT ...

I'm a cultural interdisciplinary artist and animator born in Poland. Using various mediums, I seek to answer questions concerning memory, identity and historical consequences. Among other things together with my husband Uwe von Seltmann we made many projects about Mordechaj Gebirtig.

Now because of covid we live in Istria/Croatia from where I SEND YOU MY BEST WISHES and noch ajn mol grojs dank!

Gabriela von Seltmann
